This motorized CD rack displays and searches up to 100 CDs, CD-ROMs or DVDs with the touch of a button. Simply touch the control button to rotate left or right, and the disks revolve on a quiet motorized track under an internal viewing light, so you can see them even in the dark. Once you find your selection, simply release the switch and your chosen CD stops right in front of you! This efficient CD organizer allows you to save the space required to store and organize compact discs in a dust-free environment. The Revolving CD Rack can be placed on a desktop or in a stereo cabinet, and is stackable up to 5 units using the included mounting brackets. Operated by an AC-DC adaptor, which is included. A truly ingenious way to store your compact disc collection! Available in Blue or Titanium. Good for every movie collector! Can be purchased online for \$79.99.
